

OXYGEN THERAPY HOODS

Oxygen Therapy Hoods

GINEVRI oxywood is a controlled environment chamber for administering accurate, consistent oxygen concentration to infants.

It is normally used with a heated nebulizer/humidifier to maintain adequate humidity and temperature.

Oxygen concentration is controlled by adjusting rate of flow.

High oxygen concentration can be quickly obtained using hoods. Tests show that O₂ concentrations over 97% are achieved in 4 minutes hood in a 40% oxygen environment.

No seal or plastic film around the infant's neck is necessary to maintain high O₂ concentrations.

GINEVRI's hood comes in different sizes. Neck opening fits close enough to retain O₂ concentration, yet leaving sufficient space around the infant's neck to permit O₂ displacement and provide a safety factor in case of oxygen delivery system failure.

Lift-off top permits instant access to infant's head with minimum disruption of oxygen environment.

Convenient angled inlets is tapered to accept all large-bore tubing. The outlet prevents O₂ blowing directly on the baby.

Hood's round shape takes minimal space in the incubator. It is made of clear plastic so the infant is fully visible at all times. It is available, however, in square shape.

The smallest round hood is provided with extension sections without lids, in order to maintain high oxygen concentrations. It is necessary the use of extension under radiant heaters or when it occurs a continuous access to baby's head.

The hood are easily cleaned and disinfected with detergents for plastic commonly use.

Round Hoods

C/1079

Diameter cm 15 double section with removable top, h 10 + 10 cm.

C/1080

Diameter cm 20 with removable top, h 20 cm.

C/1081

Diameter cm 24 with removable top, h 20 cm.

C/1651

Diameter cm 30 with removable top, h 25 cm.

C/1692

Diameter cm 40 with removable top, h 35 cm.

Square Hoods

C/1031

18x18x16 cm with removable top and wraps.

C/1032

22x22x16 cm with removable top and wraps.

C/2179

32x32x24 cm with removable top.

C/1082

38x38x34 cm with removable top.

C/12749A20

Wraps for square hood with double-sided tape (sold in multiple of 5 pcs)
